The Sub-Oceanic Telegraph.

Itself. The time is well remembered when she thinks she do, don't know how in the devil Mr. Morse's instrument was exhibited in a to decide such a case." committee room of the Capitol, and when it The instructions fully explain the whole was deemed a mere toy, and hardly fit for any case, and, no doubt, settle a very important practical purposes. With much persuasion, principle. and after much hesitation, the Committee on Commerce reported a bill providing for an experiment of the telegraph between this city and Baltimore. The terminus of this end of the wire was in a window in the Capitol, and TONS OF AMERICAN AND ITALIAN " the first exploit of the machine was the conveyance, from the Baltimore Democratic Convention, of the nomination of James K. Polk and the proceedings antecedent to it. The CORNAR OF LCOUST AND WATER STREETS. Baltimore experiment, from first to last, cost this government the sum of \$40,000 only. It led to the establishment of lines of electric telegraph throughout the world. Over forty-two thousand miles of telegraph are now in Those wishing all of which will be sold at refuces prices. Those wishing to purchase beautiful and lasting mementos. are now stretching from Europe to the coast, and are soon to reach Calcutta. The telegraph across the British Channel was the first imacross the British Channel was the first important experiment of working the electric CEUSHED, Loafand Powdered Segar Just rec'd by Z. H. COUE & SON. wire under water. The project of sub-Atlantic telegraphing originated here. Mr. Hubbel, PATTING .- 2500 bl. , 'd this day and for sale by of l'a, brought a project of the work to the notice of the government three or four years 25 PCS Plals Black Silk all widths, just rec'd and ago. He found no one to listen to him except Col. Jefferson Davis, who admitted that, in who at Flour, rec'd this day and for sale by Z. H. Cook & son for such a project. The first step taken was by an American company, at the head of which was Mr. Peter Cooper, of N. York, a citizen eminent for wealth and public spirit, for the establishment of a line of telegraph between St. Johns, N. F., and the United States. This line was but recently put in fuil operation. The distance between Washington and St. Johns, N. F., by the telegraphic line, is 1,460 miles, and there are five or six stations on the line where the message is to te fe-written. The difference in time between this city and Newfoundland is a little more than one hour. I saw here a dispatch, the other day, dated St. Johns, N. F., at 11 o'clock. A. M., and received here at ten o'clock A. M. The object of this line of telegraph was to connect with a new line of mail steamers, to be established between Ireland and St. Johns, and with the sub-marine Atlantic telegraph.

One of the company, Mr. Fish, went to Engtions on the line where the message is to be jans-u latid, and there succeeded in getting up the International Sub marine Telegraph Co. So the last named enterprise, great as it is in conception, is American, in origin; and it is also

The terms which the Company have made with the British Government for the use, by the latter, of the line, have been published and MAIN STREET, FIRST DOOR BELOW THE CORNEL The latter, of the line, have been published and are very favorable to the enterprise. The estimated cost of laying the cable is 350,000 pounds. Seven per cent. on this sum, the British Government agree to pay the Company annually for the use of the line, when and while it shall be in operation, providing that when the net profits of the Company reach six per cent. the annual stipend shall be reduced to ten thousand pounds sterling, instead of fourteen. Also, it is agreed that if the government messages, at the tariff rate the government messages, at the tariff rate tharged to the public, shall amount to a larger 75 BAGS Eastern Rio Coffee, chaice and prime, just tharged to the public, shall amount to a larger 75 rec'd by deels Z. H. GOOK & SON. sum, such additional payment shall be made as shall be equivalent thereto. The British

American in management, and to some extent,

the bill "to expedite telegraphic communication for the uses of the Government in its foreign intercourse," which bill is now before the Committee of Ways and Means of the House.

There is no difference between the Senate bill and the British contract. The United States Government agrees to pay only the States Government agrees to pay only the seventh bush of the British contract. The United States Government agrees to pay only the seventh bush of the British contract. The United States Government agrees to pay only the seventh bush of the British contract.
